

So you're thinking about Getting Ahead... Awesome!

Getting Ahead helps people to...

- Identify and solve problems in a safe but challenging group learning experience
- Do a self-assessment of own resources
- Develop a plan, a future story
- Get support during the time you are building resources

It is different because...

- You are the problem solver
- You make the decisions
- No one will do for you what you can do for yourself
- No one will “teach” you, you have to do the learning

We will...

- Meet twice a week, for eight weeks, for four hours in a group of 10 - 12 people
- Share lunch together every time we meet, and have coffee and tea available throughout the sessions
- Receive a \$15 gift card at the end of each session to say thanks

Getting ahead investigators (that's you!) are expected to...

- Attend all sessions
- Be willing to make up any missed sessions
- Help create the group rules - we are accountable to each other
- Be accountable to the group for being on time and completing assignments
